PRESCHOOL COLORING EMBELLISHMENT EXAMPLES

One little add-on can turn a coloring page into a simple craft. The following pages were designed so that the kiddos can add something to their picture to emphasize the light. Below are some suggestions for additions, but use your imaginations and look in your closets...you likely have something else on hand that will work just as well!

Flashlight: Add lightbeams made from strips of ribbon, straws, pipe cleaners, etc.

Lantern: Have kids wrap a square of orange tissue paper around their index finger, dab it in a little glue, and add it as the flame of the lantern

Fireworks: A fringed mini-cupcake liner or fireworks sticker works perfect to add some pizzazz

Mirror ball: Add a circle of aluminum foil or a metallic circle sticker

Spotlights: Let kids add a strip of yellow cellophane for the lightbeam
