

Illumination Black Light Animal Hunt

Illumination

Black Light Animal Hunt

- Fill a tub with shredded black paper (from paper shredder or purchased crinkle cut paper)
- Hide a bunch of luminescent resin animals in the shredded paper
- Print the cards that show pictures of each of the animals (or if you have duplicates of the animals, put one of each animal in a paper bag)
- Give kids black light flashlights and a not-so-bright place to do their activity
- Kids draw a card (or pull an animal out of the paper bag) and then use their flashlight to hunt for the animal in the black paper
